

C EOR-1310 Fully Enclosed Reel

OIL-WATER-GREASE DELIVERY (850-4000 PSI)

Introducing the new, fully enclosed CE series spring rewind hose reels. The units are constructed in a two part, pressed ribbed enclosure, which gives the unit superior strength and an aesthetically pleasing appearance. Fully enclosed and factory lubricated main spring assembly gives the CE series a long working life with trouble free rewind action. All reels are supplied with high quality 10m hose assemblies for their specified application, while the full flow swivel assemblies ensure maximum product delivery.

FEATURES:

- Two part ribbed enclosure constructed in heavy gauge steel
- Fitted with 10m x 1/2" R1 Oil Hose
- Rated to 850psi (59 Bar)
- Wall or ceiling mount options
- Latching of hose at any length
- Full flow swivel assemblies for maximum product delivery
- Supplied with 1m inlet connecting hose
- Designed for easy installation & service
- 2 way roller guide to reduce hose wear
- 2-year manufacturer's warranty
