

J AFC2000 Regulator Lubricator

J AFC2000

The J AFC2000 filter regulator/lubricator cleans, regulates, and lubricates the air supply prior to use with air tools, pneumatic cylinders and similar equipment. The air supply is firstly filtered of moisture and impurities, then pressure regulated before being dosed with a fine airborne lubricant.

FEATURES:

- Features locking control knob for pre-setting air pressure
- Large easy-to-read pressure gauge
- Lubricator includes oil/air mix control
- Supplied with wall mounting bracket

Technical Data

Technical Data	
Operating Fluid	Air
Adjustable Pressure Range	0.5/8.5 BAR
Max Working Pressure	15 Bar
Inlet/Outlet	1/8"-1/2"
Temperature Range	5-60°C
Suggested Lubricant	ISO VG32 or same grade oil
Material (Body) Cup	Die Cast Aluminium PE
Capacity of Oil Cup	25cc
Capacity of Filter Cup	15cc
