

JBC4000 Filter Regulator Lubricator

JBC4000

The JBC4000 combined filter regulator/lubricator cleans, regulates, and lubricates the air supply prior to use with air tools, pneumatic cylinders and similar equipment. The air supply is firstly filtered of moisture and impurities, then pressure regulated before being dosed with a fine airborne lubricant.

FEATURES:

- Features locking control knob for pre-setting air pressure
- Large easy-to-read pressure gauge
- Lubricator includes oil/air mix control
- Supplied with wall mounting bracket

Technical Data	
Operating Fluid	Air
Adjustable Pressure Range	0.5/8.5 BAR
Max Working Pressure	9.5 Bar
Inlet/Outlet	1/2" BSP
Temperature Range	5-60°C
Suggested Lubricant	ISO VG32 or same grade oil
Material (Body) Cup	Die Cast Aluminium PE
Capacity of Oil Cup	60cc
Capacity of Filter Cup	90cc
