

OS200/GS200 Oil/Grease Systems

PORTABLE DISPENSING UNITS

OS200 Oil System

The OS200 oil system is totally portable. To begin dispensing, the airline is simply connected to the oil pump. The OS200 is complete with OS200R trolley, C808-450M oil reel, R300S 3:1 ratio oil pump, telescopic suction tube, 2" bung adaptor, suction hose and feeder hose.

FEATURES:

- OS200R drum trolley (wheel brakes included)
- C808-450M medium pressure spring rewind hose reel - Hose: 12.5mm (1/2") I.D x 15m (50ft)
- R300S Pressure Flo oil pump (3:1 ratio)
- HG55 Electronic oil dispensing gun (optional extra)
- Telescopic suction tube, c/w bung adaptor - max depth 1200mm (4ft)
- Feeder hose - 2100mm (7ft)

GS200 Grease System

The GS200 grease system is totally portable. To begin dispensing, the airline is simply connected to the grease pump. The GS200 is complete with GS200R trolley, P8-11 grease pump and C808-150H grease reel. (Not illustrated.)

FEATURES:

- Suitable for 180kg (400lbs) drums
- P8 (50:1 Ratio) grease pump
- GS200R drum trolley (wheel brake included) ■ Lid
- Unique follower plate (incorporates release valve and removal system)
- B2 booster gun (Boosts Grease pressures to 69,000kPa/10,000 PSI /690 Bar)
- C808-150H Grease reel - Hose: 6mm (1/4") I.D. x 15m (50ft)
