

# ZCGG20L1UK Battery Operated Grease Gun

Professional Lithium-ion cordless grease gun, ergonomically designed to help reduce operator fatigue, which can develop up to 10,000psi of pressure, 3-Way loading, 1-hour fast charge and features a built in display panel which indicates the battery level, grease level, unit of dispensing and pump speed. All supplied in a robust carry case

**FEATURES:**

- Delivers upto 10,000 PSI (690 BAR) on High Pressure Setting
- Delivers upto 7,500 PSI (517 BAR) on Low Pressure Setting
- Built in display panel indicates the battery level, grease level, unit of dispensing and pump speed
- Integrated foot to rest the gun on flat surfaces
- Built in pressure release valve prevents excess pressure build up in the system
- Built in LED light which illuminates your work area
- Supplied in blow moulded case for safe and convenient storage
- Complete with 40" (1m) high pressure hose and coupler
- Empties upto 12 (14oz./400gms) grease cartridges on full charge
- Delivers upto (in free flow) 85 gm/minute
- Approx 1hr charging time

**TECHNICAL DATA**

Battery:	Rechargeable 2000 mAh Lithium-ion Battery
Material:	Cast aluminium head construction for durability and long life
Working pressure:	Up to 690bar (10,000psi)
loading:	Cartridge, filler pump and bulk
Capacity:	400g (14oz) cartridge
