

ZWODP8G 30L Gravity Feed Waste Oil Drainer

The Oil Drain with Wheel-Mounted Tank is a heavy-duty solution for efficient gravity draining of motor engine oil, gearbox and differential oils, transmission fluids, and power steering fluids from motor vehicles. Built for professional garages, service centers, and fleet maintenance, this mobile oil drain combines durability, ease of use, and smart storage features to streamline fluid service operations.

FEATURES:

- The centrally mounted 13-litre (3.4 gallon) capacity bowl is height-adjustable, allowing optimal positioning for clean and efficient oil evacuation.
- A built-in filter in the bowl captures drain plugs, nuts, and bolts, preventing debris from entering the tank.
- Tank includes a level indicator to monitor oil volume and prevent overfilling or spills.
- Mounted on wheels for easy mobility
- Not for use with fuels or corrosive media

TECHNICAL DATA

Tank Capacity	30 Litres (8 Gallons)
Bowl Capacity	13 Litres (3.4 Gallons)
Bowl I.D.	16.2" (411mm)
Min. Bowl Height	43" (1092mm)
Max. Bowl Height	62" (1575mm)
