

Reelworks - SS808 Series

The SS808 series spring rewind hose reels are constructed in 304 grade stainless steel and other non corroding materials. These reels are designed for harsh, corrosive environments or where hygiene is of primary importance. Ideally suited for wash down applications in food processing areas, marine and offshore.

FEATURES:

- Heavy duty stainless steel construction
- Double supported solid 1" stainless steel axle
- Fully automatic hose rewind for neat and tidy storage
- Slotted and drilled mounting holes for easy installation
- Latching of hose at any length
- Non-sag roller guides reduce hose wear
- Externally mounted full flow stainless steel swivel assembly
- Supplied as bare reel, hose available at extra cost (Application needed)

For Trigger Operated Water Guns
