

HERKULES LIFTING BY HEDSON

Herkules HLS 1200 DUO

The Herkules HLS 1200 DUO by Hedson is a user-friendly lift for workshops who need to lift the vehicles either on wheels or for a wheel free work position. A outstanding lift with double operation.

- 2,5 tons lifting capacity
- Lifting on the wheels or wheel free lift
- On-ground or flush mounted installations

HIGH CAPACITY

The Herkules HLS 1200 DUO is a user-friendly lift, with its loading capacity of 2,5 tons, for workshops who need to lift the vehicles either on wheels or for a wheel free work position

SPACE SAVINGS

The lift is easy to install and facilitate an individual planning of body shops by using the existing space optimally. It can be installed on-ground or flush mounted

ERGONOMIC

The lifting and lowering of the working height is done safely and smoothly optimizing the ergonomics and accessibility to all parts of the car during the job
